Full Service Menu

All clients are required to have our Client Form on file prior to their first appointment.

We work with saddles of all disciplines. For specific questions please contact us.

The prices listed below are subject to change. Individual pricing can vary based on actual need, time, and materials used at fitting.

Saddle Fitting Services

Equine Consultation and Saddle Fit Evaluation **\$125-\$165 & up**

This service is typically your first appointment with us, or if you have a new horse or new saddle. We will come to your farm and perform a full equine back evaluation, then evaluate your current saddle fit for both you and your horse. This evaluation includes thermal image of the saddle fit. Once we have evaluated, we will then either adjust the saddle or make recommendations as to what your horse requires in a saddle. If needed, we will add on service of full back tracings (\$30) and take you through our saddle sale/ purchasing

Saddle Fit/ Flock Adjustment **\$95 & up**

This service is for follow up adjustments- Once your saddle has been determined a good fit this service is used to provide minor adjustments, fresh flocking, and customization of your saddle fit to horse. This evaluation includes thermal image of saddle fit. We recommend at least an annual checkup of saddle fit-more often for young/ developing horses, horses in full work, or sensitive horses.

Thermal Image- Rider Balance Saddle Assessment **\$135 & up**

For this service we will watch the rider spend 30 minutes on the horse in the saddle with no half pad. This will allow for time for the rider to relax and get into their normal point of balance and the fitter to evaluate rider position with fit. The saddle is then taken off and scanned with thermal for uniformity of contact and adjusted accordingly. The rider re-mounts and tests the use of seat and leg aids to ensure that they are comfortable with the corrections that were made.

Add-on Services

All add on services are priced for the same horse as appointment

Additional Saddle Evaluations	\$25
Evaluation of saddle, safety points, and fit on horse- does not include re-flock or adjustment

Cold Laser Treatment	\$50
20 min session add on, please see laser description at bottom of page.	

Saddle Purchase & Selling Assistance

We **do not** sell saddles or represent any specific saddle manufactures. Feeling it is a conflict of interest to sell as well as fit, we choose not to represent any specific saddle manufacturer. This enables us to remain open minded about all brands, and truly help you find the best fit for you and your horse.

Saddle Purchasing

Please Contact Us for Pricing

Evaluation of horse and rider for suggestion of saddle brands/ model based on fit for you and your horse. Tracings if necessary. Once you find your saddle, we will come to your barn to do a full appointment to fit the saddle to your horse.

At times we have client saddles that are for sale if one is a good fit, we offer saddle trials (\$25 fee). We require potential buyers to fill out our Saddle Trial Agreement and have a credit card on file. We do not participate in the sale of the saddle. The purchase/ sale of client saddles is client to client we only provide transportation and storage and do not take commissions on these saddles.

Saddle Selling

\$100 fee

At times we take client saddles that are for sale as a benefit/ convenience to our clients to connect potential buyers to saddles at appointments. To have a saddle with us we do charge a \$100 onetime fee for storage/ cleaning and to offset our insurance costs.

We do offer trails to potential buyers for \$25/ trial. We require the potential buyer to fill out our Saddle Trial Agreement and have a credit card on file. All saddle Sales are completed directly between clients- the buyer and the seller. We do not take commissions on these saddles and simply act as a connection between both parties.

Saddle Repairs & Reflocking

***Clients are responsible for shipping costs**

Repairs

Please Contact Us for Pricing

We offer billet replacement, and minor saddle repair of broken stitching and popped quilting on knee rolls and panels.

Flock Lift

Please Contact Us for Pricing

Relatively new saddles might just require a light refreshing to maintain shape. New wool flock will be used to lift the existing flock in the panels to ensure consistent contact with your horse's back. This is the most common type of service for saddles that are properly and regularly maintained.

Partial Flock

Please Contact Us for Pricing

It may be found that the flocking in the twist, pommel, or knee roll areas is in need of replacement due to uneven wear or excessive pressure(jumping is the most common cause, as is an imbalanced rider).

Full Flock

Please Contact Us for Pricing

The saddle will be taken apart and inspected for damage. Repairs will be made as needed. The old flocking will be removed from the panels, the saddle will be sewn back onto the tree, and the panels re-flocked with top quality wool. If you have had the Horse Back Evaluation done, the saddle will be flocked to fit the templates to guarantee the best possible fit.

Miscellaneous
